

**INFORMAL COMMUNICATION**  
**Proposed Claim Set**

This communication is informal and is for discussion purposes only and is not intended to be placed in the official file. Applicants propose to amend the claims as follows, wherein the inserted text is underlined and the deleted text is in brackets.

- 1 1. (Twice Amended) A razor, comprising:  
2 a handle having a longitudinal axis;  
3 a shaving head carrying at least one blade with at least one cutting edge and defining a  
4 transverse axis parallel to said at least one cutting edge;  
5 a connector assembly movably coupling said handle to said shaving head; and  
6 a biasing element spaced apart and separate from said connector assembly and disposed  
7 between said shaving head and said handle;  
8 wherein:  
9 said connector assembly permits said shaving head to exhibit a first movement toward  
10 and away from said handle into and out of [said] a rest position; and  
11 said biasing element biases said shaving head into [a] said rest position against said first  
12 movement.
- 1 2. (Unamended) A razor as in claim 1, wherein said connector assembly further permits a  
2 pivoting second movement forward and backward about a pivot axis parallel to said transverse  
3 axis into and out of said rest position.
- 1 3. (Unamended) A razor as in claim 2, wherein said biasing element biases said head into  
2 said rest position against said first movement and said second movement.
- 1 4. (Unamended) A razor as in claim 2, wherein said connector assembly includes at least  
2 one insertion element and at least one cutout shaped to receive said at least one insertion element,
